

FOUNDER'S NOTE

Driven by innovation, guided by passion, forging paths to redefine possibilities!

As the driving force behind Perkasa Intan Murni, a culmination of dedication to pioneering excellence in mechanical & electrical engineering, renovation & facilities management, custom-made apparels, and furniture & fittings among others, I aimed to reimagine spaces and experiences by merging innovation with functionality, ensuring that every product and service we offer reflects our commitment to quality, personalisation, and transformative solutions. That is what Perkasa Intan Murni is all about.

With over 30 years of experience, I have managed ICT and telecommunication services, but my passion lies in shaping the very spaces where life unfolds. Starting with a passion for Electrical Engineering and continuing with advanced studies in Communications Management, my journey has been driven by a quest for excellence and continuous growth. Whether at Telekom Malaysia or within global organisations, every role has been an opportunity to turn my visions into meaningful outcomes. For me, it's not just about technical skills, it's about reshaping environments and crafting experiences that truly matter. This led to the establishment of Perkasa Intan Murni.

It was a vision born from a desire to revolutionise traditional paradigms. I believe that we needed a holistic approach - an integration of engineering, renovation, and furnishings, which slowly extended to apparels. This led me to create a team of like-minded individuals to redefine how individuals and businesses interact with their spaces. As a growing brand, we strive to always merge creativity with functionality, ensuring that every aspect of our offerings aligns with the diverse needs and aspirations of our clients.

At present, Perkasa Intan Murni has big plans to grow bigger, and it is made possible because of the great support from our clients and team. With that, I thank you.

DATIN NORHIZAN IBRAHIM

Founder & Managing Director
